

LIGHT HAUS LIVING

Basic Home Tool Kit

A small, practical kit for everyday fixes, furniture assembly and hanging pictures. Check what you already own before buying more.

LIGHT HAUS
LIVING

THE EVERYDAY ESSENTIALS

Tick what you have. Add only what you need.

- ☐ **Multi-bit screwdriver**
Include Phillips(+), flathead(-) and Robertson (square) bits.
- ☐ **Claw hammer**
Choose a comfortable grip and a weight you can control.
- ☐ **Tape measure**
A5m / 16ft tape with metric and imperial markings.
- ☐ **Small bubble level**
For straight pictures, hooks and shelves.
- ☐ **Adjustable wrench**
For tightening or loosening nuts and bolts.
- ☐ **Pliers**
One general-purpose pair; add needle-nose for small spaces.
- ☐ **Allen / hex key set**
Metric and imperial sizes for furniture and household fittings.
- ☐ **Scissors + retractable utility knife**
For packaging and cutting tasks; retract the blade after use.
- ☐ **Flashlight or headlamp**
Keep it charged or store suitable spare batteries nearby.
- ☐ **Safety glasses + work gloves**
Choose a comfortable fit appropriate to the task.

SMALL EXTRAS

Pencil • painter's tape • reusable cable ties • a small, divided hardware box. Choose picture hooks and fasteners to suit the wall and item weight.

ADD WHEN NEEDED

Cordless drill/driver and bits, a stud finder, or a rubber mallet. Borrow or rent occasional-use tools before buying.

GIVE YOUR TOOLS ONE HOME

Use a labelled toolbox or handled bin. Return tools after each job. Keep sharp tools, small parts and batteries secure and out of children's reach.

Before drilling, check for hidden wiring and pipes; a stud finder alone cannot confirm a safe spot. Follow tool instructions and use a qualified professional for work beyond your skills.

Guiding you out of clutter and into clarity.™
